Christa Cooper

A hardworking professional looking to secure a Jr. Software Engineer or similar position. Motivated to learn, grow and excel in the Industry. Eager to contribute to team success through hard work, attention to detail, and excellent organizational skills.

Current Projects

https://christacooper.dev/ where my portfolio is showcased

The Dog Food App: Nucamp Honors project for Front-end Bootcamp. Myself and two classmates in React Native made an app for a Non-Profit in Portland, OR that accepts dog food donations and redistributes it to the needy. The app helps them with Inventory control, and keeping track of donor and recipient information.
GitHub: https://github.com/UJordan/dogfoodapp

The_To_do_list: Nucamp Honors project for Backend Bootcamp, written in Django.
Live App: https://seashell-app-uw9gu.ondigitalocean.app/
YouTube: https://www.youtube.com/watch?v=tL4L2vs9bcM&t=3s
